How are you embedding, reinforcing, and assessing cultural learning in your course? This workshop introduces you to various dimensions of intercultural competency to help you clarify your course-level and curricular-level intercultural learning outcomes. We will also explore multiple methods to document and capture intercultural learning (e.g., self-assessment, simulation, critical incidence analysis, reflection). Bring your course-level learning outcomes and assessment instruments to analyze and improve intercultural learning in your course. We will end with a discussion on how intercultural learning is threaded across curriculum in your program and deliberate strategies to track student progress/growth.

Please RSVP for a meal with Sarah Shortt at sshortt@emory.edu or (404) 727-8319
